

4th Helmholtz-Munich **Immunology** Symposium on

“Immunometabolism - Impact on Environmental and Metabolic Health”

Wednesday, September 29th 2021

Welcoming note organizing committee: **Carolyn Daniel / Ali Önder Yildirim**

- Session-I Chair
14:10 -14:30 **Isabelle Serr (HMGU)**
Mikael Simons, TUM
How lipid metabolism is connected to innate immune function in remyelination of the CNS
- 14:30 -14:50 **Caspar Ohnmacht, HMGU**
Who controls the T(reg)ulators: Dendritic Cells, Microbiome & beyond
- 14:50 -15:10 **Gurumoorthy Krishnamoorthy, MPI**
Diet-microbiome axis in the regulation of autoimmunity
- 15:10 - 15:20**
Short break
- Session-II Chair
15:20 -15:40 **Isis E. Fernandez Buelvas (HMGU)**
Barbara Schraml, LMU
Dendritic cells in early life – immune sentinels wise beyond their age?
- 15:40 – 16:00 **Alexander Bartelt, HMGU**
Adipocyte inflammation in metabolic disorders
- 16:00 – 16:20 **Maria Rohm, HMGU**
Novel players in cancer-associated weight loss
- 16:20 - 17:00 **Keynote: Mihai G Netea, NL**
Immunometabolic control of trained immunity
- 17:00 -17:10 **Discussion and Conclusion**

Please join the 4th Helmholtz-Munich **Immunology** Symposium from your computer, tablet or smartphone.
